(n1) Including docking and undocking. The total length of the ship to be confirmed by the "Ship's Particulars". The use of the berth as from the receipt of the first line of the vessel toward the bollard, to the undocking of the last line before vessel departure.

(n2) This tariff is applicable to berths with STS gantry cranes.

(n3) The containers whose dimensions are less than 20-foot containers will be charged with 20-foot container tariff. The containers whose dimensions are higher than 20-foot containers will be charged with 40-foot container tariff.

(n4) Transhipment containers are those which arrive and are shipped in vessels that operate in the North Terminal. The tariff includes loading/unloading in both ships (complete transhipment cycle). It includes two days of operative area use, with the exception of containers with oversized cargo that are billed for use of operational area from day one, as it is a special service. Inter-terminal Transhipment containers are also invoiced according to described tariffs in this section (1.1.2.5, 1.1.2.6, 1.1.3.5 y 1.1.3.6), in which tariff applies per move rather than per complete cycle. It also includes cabotage containers that are discharged in one ship and are loaded onboard another vessel calling at the North Terminal. Containers discharged in berths with STS gantry cranes and are then loaded in vessels at berths without STS gantry cranes (or viceversa) will be charged with section 1.1.2 tariff.

(n5) This is applicable only in those berths which do not have STS gantry cranes and in those cases when loading/unloading operations of containers will be carried out without STS gantry cranes.

(n6) At the other services applying to all types of vessels are available in section 7 of this Tariff Schedule.

(n7) Applicable to all users that necessarily require the service(s), according to conditions established in the Tariffs Regulation and Commercial Policy of APM Terminals Callao S.A.

(n8) Charge of this price is applicable whenever service is required by users and is aimed to increase productivity of loading/unloading container operations above productivity levels set forth in the Concession Agreement. This price is additional to standard service without gantry crane. In case productivity is increased by initiative of APM Terminals Callao S.A. and with no user request, productivity increase cost is under responsibility of APM Terminals Callao.

(n9) Free time to run as from the end of complete discharge operation of the ship.

(n10) 72 Free hours to run as from the period cargo is located in the Terminal yard for shipment. Storage time ends with vessel ETB sent to the users. For purposes of computation of storage free time storage and billable storage, it should be taken in consideration is the so-called "Billable ETB" that is published in the "Container Ship Programme" option on our website and defined in the Tariffs Regulation and Commercial Policy of APM Terminals Callao S.A.

(n11) Free time to run as from the end of complete discharge operation of the vessel or from the moment the container is located in the Terminal yard for shipment. Free time does not apply to full transhipment containers with oversized cargo; that is, for this type of container, the use of operating area is billed from the first day.

(n12) This is applicable to those containers from empty pool granted to shipping lines in accordance to corresponding agreement with APM Terminals Callao S.A. Price is independent from the number of storage days.

(n13) In the event that a container carries several classes of IMO cargo, the higher price amount of IMO classes will be applicable as one sole charge. Price of subsection 1.2.9.5 does not apply for ammonium nitrate IMO Class 5.1, unless the user requires the service. Price of subsection 1.2.9.4 does not apply for containers of Fishmeal IMO Class 9.

(n14) This service covers additional capacity of containers yard or stacks of empty containers (all traffic) and full transhipment containers, although in the case of containers with oversized cargo, the price applies only to full transhipment containers and the use of the area is billed from the first day (does not include free hours). In the case of high-cube containers the price is independent from the number of storage days at the Terminal.

(n15) This price is applicable to all discharged or shipped containers through the Terminal including restow containers (via quay and in the same hold), that require such service. This is applicable for this operation, whether it is connection or disconnection.

(n16) Tariff applicable until day 10th of storage (inclusive).

(n17) Price applicable as from 11th day onward.

(n18) This is applicable to re-stow containers via quay, including inspection and monitoring if necessary. This is an one time payment to be applicable for total energy supply provided to re-stow reefer containers.

(n19) Includes activities necessary for the supply of nitrogen gas (N2) and/or carbon dioxide (CO2). It also includes, if necessary, the verification of possible leakage of air or gas from the container prior to the supply of gases.

(n20) This is applicable to those cases whenever there is a difference between seal information provided by APM Terminals Callao S.A. and information from the user, for additional services requested by the user. In the event APM Terminals Callao S.A. originates seal discrepancy no charge will be applicable. Not applicable as well for loading controls.

(n21) Service that involves moving the container between port terminals from the North Terminal to the South Terminal whenever a container is unloaded via the North Terminal and it is required to be shipped via the South Terminal and/or viceversa.

(n30): In the event that a container carries several classes of IMO cargo, the higher price amount of IMO classes will be applicable as one sole charge. Price of service (subsection 1.5.1.4) does not apply for ammonium nitrate IMO Class 5.1, unless the user requires the service.
(n34): The price of this service (subsection 1.5.1.3) does not apply for Fishmeal - IMO Class 9 previously declared as such in the Container Announcement List (CAL) for shipping as per procedures.
(n35): This service covers additional capacity of container yard or stacks of full containers (except transshipment), in the case of high-cube containers the price is independent from the number of storage days at the Terminal and this is not applicable for containers of Temporary Depot service (section 1.4 services). In the case of containers with oversized cargo, the use of area is billed from the first day (does not include free hours).
(n36): Applicable to all users that necessarily require the service(s), according to conditions established in the Tariffs Regulation and Commercial Policy of APM Terminals Callao S.A.
(n37): This is applicable until 6th day of storage also. This tariff is applicable to all containers that are loaded or discharged via the Multipurpose North Terminal, except for transshipment and re-tow containers.
(n38): This tariff is applicable from day 7 onwards for Port Terminal services when APMTC has not been appointed Temporary Depot. Whenever APMTC is appointed as Temporary Depot, price is applicable from day 8th onwards.
(n39): This service refers to connecting/disconnecting the empty reefer container and supplying energy to said container, in order to adapt to the cold temperature required by the customer prior to placing the fresh or refrigerated merchandise inside the empty reefer container; it also includes monitoring and inspection throughout the period in which the merchandise remains in the pre-cooled container. This service is a price (not regulated) when the pre-cooled empty container is representative to serve all those goods that come from (or will move towards) a full container unloaded or loaded by the Port Terminal (section 1.5.2.5). In those cases that the merchandise was unloaded or loaded as break bulk cargo (frozen fish and others) the regulated service tariff applies (section 1.5.2.7).
(n40): Price applicable to all users (consignee or representative) who demands, directly from APM Terminals Callao, the service in cases of inspection (by red channel, prior inspection, by BOE or another) or for other reasons.
(n41): Service includes the use of Mobile Harbour Cranes per a period of 4 hours. For deconsolidations, service also includes the separation of the cargo that is located inside the container (flat rack or another) and placing the cargo on the truck or unit assigned by the consignee (or representative). In the event of consolidations, it comprises the reception of the cargo from trucks or the transport unit of the consignee (or representative) and the consolidation of the cargo or its placement inside the container (flat rack or another). This is subject to Mobile Harbour Cranes' availability.
(n42): Price applicable to all users who demand the service in cases where the loose break bulk cargo is placed on (or removed from) a pallet that will then be consolidated within (or previously will be deconsolidated from) a container. Includes the provision of straps or similar for the assembly of pallets. It does not apply to inspection cases (either prior, by red channel or requested by BOE personnel).
(n43): It is charged to each breakdown B/L mother, B/L son or B/L grandson.
(n44): Respective labels shall be placed according to cargo classification as per IMDG code for export operations. For import operations, placing of label shall take place whenever a discharged container does not have a label or corresponding label, in such case, removal of labels will take place. Label removal shall also take place when containers are returned for their reutilization or in those cases when these do not correspond to IMDG code, for placing the correct label instead.
(n45): Weighing of containers shall be executed at the facilities of the North Terminal as per request of the user (cargo owner or consignee) or the authority. The charge of this service is applicable for containers that suffered no modification (from physical inspection or other reason), and which additional weighing result does not vary more than 3% of registered weight from standard service weighing.
(n46): This service shall not be applicable for shipping, unloading or transshipment services for empty containers set forth in Section 1.1.2 and 1.1.3 of current Tariff Schedule.

Section 2	BREAK BULK CARGO SERVICES										
Section 2.1	Standard Services	Nature	Unit of charge	Vessel (Tariff)	Vessel (IGV)	Cargo (Tariff)	Cargo (IGV)	Vessel (Tariff)	Vessel (IGV)	Cargo (Tariff)	Cargo (IGV)
2.1.1 Standard Service to the Vessel - Services to the Vessel											

2.2.2	Re-stow via quay (n48)		Per ton	38.64	0% Rate			34.00	Tasa 0%		
2.2.3	Transhipment of Break Bulk cargo										
2.2.3.1	Transhipment of Break Bulk cargo - Complete cycle (n49)	Non Regulated	Per ton	25.60	0% Rate						
2.2.4	Special Cargo										
2.2.4.1	Loading/Unloading of project cargo without mobile harbor crane (n50)	Regulado	Por tonelada o m3			35.33	Tasa 0%			31.90	Tasa 0%
2.2.4.2	Loading/Unloading of project cargo with mobile harbor crane (n50)		Por tonelada o m3			49.24	Tasa 0%			43.70	Tasa 0%

(n48): This is applicable to the cargo that is re-stowed in the same hold (level) or in another hold (level) of the vessel which in both cases cargo requires to be temporarily transferred to the quay.
(n49): Price of service includes 3 free days of storage which applies after completion of cargo discharge operation of the vessel.
(n50): This is applicable to all cargo that cannot be transferred by its own means, weighing over 35 tons or being over 50 m3 per unit. The unit of charge shall be applicable to the larger measure between tonnage and dimension in m3. Tariff shall be charged to the shipping line or cargo consignee according to the maritime shipping contract. Tariff will be charged to the user who indicates the contract of maritime transport. The tariff includes only one movement (either unloading or loading); if the project cargo has to be unloaded and then loaded (as happens with full cycle transshipment) entirely at the Terminal, which involves two movements, then the tariff for this service will be billed twice.

Section 2.3	Special Service of Use of Operational Area (Port Terminal) - Services to the Cargo	Nature	Unit of charge	Vessel (Tariff)	Vessel (IGV)	Cargo (Tariff)	Cargo (IGV)	Vessel (Tariff)	Vessel (IGV)	Cargo (Tariff)	Cargo (IGV)

2.4.1.3	Use of operational area from day 21 onwards		Per ton/day			4.20	0.76				
2.4.1.4	Break Bulk Cargo - Includes use of operational area until day 30 (n52)		Per ton			70.00	12.60				
2.4.1.5	Other services (n53)										

(n51): This is applicable whenever APM Terminals Callao S.A. is appointed as Temporary Depot (code 3014) after cargo has been previously coordinated and accepted by APMTIC (Subject to space availability). It includes the Standard Service cargo portion, use of operational area until day 10, temporary depot documentation emission (volante) and transmission to Customs. First three calendar days are free of charge and are part of the Standard Service.
(n52): Price of section 2.4.1.3 is applicable for use of operational area of temporary deposit of subsection 2.4.1.4 from day 31 and onwards.
(n53): For the other services, tariffs and prices of sections from 2.5.2 to 2.5.4 are applicable independently from the number of storage days of break bulk cargo in the Terminal and regardless of the temporary deposit services chosen (either from section 2.4.1.1 or 2.4.1.4).

Section 2.5	Other Special Services to Break Bulk Cargo (Port Terminal & Temporary Depot) - Services to the Cargo	Nature	Unit of charge	Vessel (Tariff)	Vessel (IGV)	Cargo (Tariff)	Cargo (IGV)	Vessel (Tariff)	Vessel (IGV)	Cargo (Tariff)	Cargo (IGV)	
2.5.1	Use of Simple Depot - All traffic (n54)											
2.5.1.1	Days: 1 - 30 (Price per month or fraction month)	Non Regulated	Per m2			11.00	1.98					
2.5.2	Special Cargo											
2.5.2.1	Loading/Unloading of project cargo without mobile harbor crane (n50)	Regulated	Per ton or m3			35.33	6.36			31.90	5.74	
2.5.2.2	Loading/Unloading of project cargo with mobile harbor crane (n50)		Per ton or m3			49.24	8.86			43.70	7.87	
2.5.2.3	Special treatment to hazardous cargo using equipment and additional personnel - direct treatment (n55)	Per ton			20.10	3.62						
2.5.2.4	Special treatment to hazardous cargo using equipment and additional personnel - indirect treatment (n55)	Per ton			24.10	4.34						
2.5.3	Cargo Handling and horizontal movement operations											
2.5.3.1	Additional Movement as per request of the user or competent authority	Non Regulated	Per ton			4.00	0.72					
2.5.3.2	Handling for registry of break bulk cargo (n56)		Per ton			4.00	0.72					
2.5.3.3	Deconsolidation/Consolidation of break bulk cargo with MAFIs (n57)		Per MAFI			281.00	50.58					
2.5.3.4	Deconsolidation/Consolidation of Break Bulk cargo in MAFI's with Mobile Harbour Cranes (Price per shift or fraction shift) (n58)		Per Shift			1,250.00	225.00					
2.5.3.5	Deconsolidation/Consolidation of MAFIs (n59)		Per MAFI	83.00	14.94							
2.5.3.6	Bagging or racking of goods in sacks or big bags (60)		Per ton			20.00	3.60					
2.5.4	Other services											
2.5.4.1	Additional weighing (This does not include extra movement)	Non Regulated	Per truck			21.00	3.78					

(n54): This service refers to heavy Break Bulk cargo, placing it in a designated area and storing it for a period agreed by the exporter or importer and APM Terminals Callao S.A. This is applicable for Break Bulk cargo that will be finally shipped as another type of cargo (in containers mainly) or for another cargo that has been unloaded in container and is then stored as Break Bulk. Standard service shall not be provided to Break Bulk cargo in this case. Tariff for this service is applicable as Simple Depot only. Space is subject to availability.
(n55): Tariff corresponds to loading and unloading operations of hazardous break bulk cargo (IMO) whenever additional equipment and/or personnel is to be provided as per Port Authority regulation or upon request of the user. Tariffs of sections 2.5.2.3 and 2.5.2.4 include Standard Service to break bulk cargo. If additional equipment and personnel are not to be provided, then Standard Service tariff to break bulk cargo shall be applicable. Under direct treatment, port hazardous cargo is to be delivered to the user in the berth (next to the ship) immediately after being discharged. Under indirect treatment, import hazardous cargo is delivered to the user at the storage area.
(n56): This refers to handling of cargo using forklifts and/or gangs for the registry or inspection of cargo. This service shall be provided upon request of the user (cargo owner or consignee) or the authorities.
(n57): Price is applicable for special treatment to break bulk cargo in the storage yard in order to separate/dispatch/unload or place/load break bulk cargo from metallic platforms (called MAFI trailers). This is invoiced to the cargo consignee.
(n58): Service includes the use of Mobile Harbour Cranes, for special treatment of Break Bulk cargo at the operational area, for the period of four (04) hours in order to separate/withdraw/discharge and place/load break bulk cargo from metallic platforms (Referred to as MAFI trailer). Price is invoiced to the Cargo Consignee, being applicable in those cases where Mobile Harbour Cranes are required for less than four-hour (4) periods. This is subject to Mobile Harbour Cranes' availability.
(n59): This is applicable for assembly/placing or disassembly/separating of MAFIs for its delivery to the shipping line. This is invoiced to shipping lines.
(n60): Price applicable in case of solid bulk cargo racking on sacks or big bags. This price is also applicable when the load is transferred from a bag in poor condition onto a new bag. In both cases (bagging or racking) the service may be provided in the warehouse of the ship, dock or storage area. The minimum price to charge is USD 20.

(n75) Services applicable to all type of vessels.

(n76): This is applicable for the use of contentment barriers during fuel supply operations to the vessel. Service includes placing and unlatching contentment barriers as well as cleaning and drying service. Tariff for contentment barriers shall be applicable to the shipping line or its representative.

(n77): This service will apply to users named "clients of ordinary service" which refers to loading or discharge operations per vessel call, and in case of discharge and loading operations of compatible goods per vessel call. Service shall not be applicable to discharging and loading operations of incompatible goods of same vessel call, in other words, to discharging cargo not compatible with products to be loaded. This includes vessel hold cleaning service (price of section 7.1.2.1 of Tariff Rates) and unloading of solid waste (price of section 7.1.2.2 and/or 7.1.2.3), as result of cleaning process, and it does not include washing of holds.

(n78): This service refers to picking up solid waste onboard the vessel such as materials from lashing/unlashing (wood, cardboard and others) as well as other authorized solid waste (wastage of shipped or unloaded cargo, etc.).

(n79): This refers to unloading solid waste onboard the vessel such as materials from lashing/unlashing (wood, cardboard and others) as well as other authorized solid waste (wastage of shipped or unloaded cargo, etc.) not classified as dangerous. Service includes temporary store in the terminal facility if necessary, as well as final waste disposal. Minimum invoice shall be USD 255.

(n80): This refers to unloading hazardous solid waste onboard the vessel from the cleaning of the ship's holds and final disposal of wastes from vessel. Minimum invoice shall be USD 400

(n81): Price of this service includes collection and final disposal of oily waste from vessel.

(n82): This service refers to discharging or collecting from vessels recoverable waste from vessels (such as: plastics, plastic or metal rods, wood, cardboard, paper, magazines and any other of the same type), classified as non-dangerous. Price of service applies to those cases where APM Terminals Callao S.A. does not carry out vessel hold cleaning service. Minimum invoice shall be USD 357.

(n83): This service refers to discharging or collecting from vessels non-recoverable waste classified as non-dangerous. Service includes temporary store in the terminal facility if necessary, as well as final waste disposal. Price of service applies to those cases where APM Terminals Callao S.A. does not carry out vessel hold cleaning service (section 7.1.2). Minimum invoice shall be USD 357.

(n84): This service refers to discharging or collecting from vessels hazardous solid waste. Service includes temporary store in the terminal facility if necessary, as well as final waste disposal. Price of service applies to those cases where APM Terminals Callao S.A. does not carry out vessel hold cleaning service (section 7.1.2). Minimum invoice shall be USD 500.

(n85): This shall be provided according to the Terminal's berth/berth availability or capacity and shall be charged to the shipping line or representative.

SECTION 8 COMMERCIAL POLICIES (n86)											
Section 8.1	Cancellation of loading	Nature	Unit of charge	Vessel (Tariff)	Vessel (IGV)	Cargo (Tariff)	Cargo (IGV)	Vessel (Tariff)	Vessel (IGV)	Cargo (Tariff)	Cargo (IGV)
8.1.1	Cancellation of container loading and withdraw of container (n87)

8.1.2	Cancellation of break bulk and ro-ro cargo loading (n88)										

(n86): For further details on the scope and conditions of applicable discounts, offers and promotions, see Charter V of Tariffs Regulation and Commercial Policy of APM Terminals Callao S.A. published on website: www.apmterminalsallao.com.pe

(n87): This is applicable whenever the user (consignee, representative or shipping line) withdraws a container after cancelling container loading. Price covers resource costs involved in standard service cancellation and container withdraw. In this case standard service tariff shall not be applicable. It applies for full and empty containers. Tariffs of section 1.2 (for empty) or 1.3 (for full) that refer to the use of the operational area applied if the container stays more than 48 hours.

(n88): This is applicable whenever the user (consignee, representative or shipping line) withdraws the cargo that has not been shipped due to overbooking, stack weight, stow limitations, change of vessel, among others. Standard service (cargo portion) shall be charged as well as the use of operating area (Port Terminal). For use of operating area, the tariffs stated in section 2.3.1 and 3.3.1 shall be applicable if break bulk and ro-ro cargo stay longer than the free time granted by the standard service to these kinds of cargo.

9.3.6	Other surcharges to the Cargo				
9.3.6.1	Bulk cargo re-delivery to truck (n100)	Per truck	225.00	40.50	265.50
9.3.6.2	Liquid spill management (n93)	Per case		Por cotización	

(n94): This applies only to shipping through tanker trucks.

(n95): This applies only to the document submission of containers that are taken into the Temporary Depot (2014) out of the cut off set by APM TERMINALS CALLAO S.A.

(n96): Appointments will last one (01) hour.

(n97): Missing an appointment means a user does not attend within the period granted by APM TERMINALS CALLAO S.A., and also when the user tries to cancel or reschedule its appointment during the period between one hour and one minute before the appointment.

(n98): The cancellation surcharge applies when the user cancels the appointment within eight and one hours before the start of the appointment. The rescheduling surcharge applies when the user reschedules the appointment within eight and one hours before the start of the first appointment. No cancellation or rescheduling surcharge will be charged if the user does it eight (08) hours before the appointment.

(n99): The surcharge applies when the customer or its representative, after failing to attend or cancelling a scheduled and approved container movement service (related to an inspection, consolidation/deconsolidation or other service), requests the rescheduling of such service. The user requests rescheduling when it does not show up for the service within the scheduled time or when he cancels the service outside the deadlines established in the Operating Regulations. Note that, according to the Operations Regulations, the deadline to cancel a mobilization service is before 6 p.m. on the same day the mobilization request is submitted. This surcharge applies for each rescheduling requested (if the user request no rescheduling for the same container the user will be charged twice the surcharge). Examples of services that require container mobilization: customs inspection (by red channel), SENASA, BDE, loading control, inventory, consolidation/deconsolidation, among others.

(n100): This applies when solid cargo falls to the ground while unloading it from silos to truck or from hopper to truck due to driver's or truck's inefficiency (e.g. not closing truck's door properly). It includes slab cleaning and bulk cargo re-delivery to truck. Surcharge will be charged to the user (consignee, customs agent, or others)

COMMERCIAL POLICIES

DISCOUNTS, OFFERS AND PROMOTIONS

Discounts, offers and promotions are commonly accepted practices that answer to compensatory circumstances which shall be determined by APM TERMINALS CALLAO S.A. in compliance with the principle of non-discrimination, equality, neutrality, prohibition of price transference and free election.

In this regard, APM TERMINALS CALLAO S.A. shall generally establish the following commercial practices of discounts, offers and promotions:

Date of Payment: Payments shall be done according to the following considerations:

- Standard Services - Import: Before the cargo is picked up from the Terminal.
 - Standard Services - Export: when the appointed date is requested in order to enter the cargo to the Terminal for its shipment.
 - Special Services - Import: When the appointed date is requested to pick up the cargo from the Terminal.
 - Special Services - Export: At the moment the service is requested.
- e) In those services rendered as per specific contracts subscribed between APM TERMINALS CALLAO S.A. and a customer, payment conditions shall be executed according to the terms established in the Contract.

OFFERS AND REDUCTIONS OF TARIFFS AND PRICES

Offers or tariffs and/or prices reductions apply to individual companies, but also to economic groups. In order for the offer or discount to apply to the companies forming an economic group, the following conditions must be met, at least: (i) that the principal or parent company is the one requesting the offer, and (ii) that the principal or parent company has sent the list of companies which entered or will accede to the offer, this list must be submitted by means of a letter in which it is supported, in accordance with national law, that the companies on the said list are part of its economic group. The terms of which company or companies will be invoiced will be coordinated with the main or parent company.

In all cases of the offers stated below, the tariff or price to be charged for storage a unit completed days off of use of the operating area that each promotion grants are not retroactive. For example, item (iv) of offer 1.1 grants a total of 30 free days; if the user remains in the storage area until day 35, the price of subsection 1.3.1.7 of the Tariff List will apply for the period from day 31 to day 35. Another example, item (i) of offer 1.2 grants a total of 10 free days; if the user's cargo or container remains in the storage area until day 34, then the user will be charged the price of subsection 1.4.2.4 of the Tariff List for the range from day 11 to day 28 and the price of subsection 1.4.2.5 of the Tariff List for the range from day 29 to day 34.

Dear customers and users,

(Group 1) SPECIAL OFFER FOR DRY CARGO CONTAINERS IN APM TERMINALS CALLAO'S TEMPORARY DEPOT

APM Terminals Callao (APMTC) has set special offers for the containers processed as Temporary Depot (code 3014) that meet the requirements below, according to the type of promotion. Offers include the extension of days free of use of operational area and/or discounts on the price of the integrated temporary deposit service. Each promotion is independent (not cumulative); for example, if the user chooses promotion 1.1, they would not be able to apply to promotion 1.2, 1.3 or 1.4. Promotions are governed by the following terms:

1.1 Discount on Integrated Service Price and extension of free days – dry cargo import

- Target group: Importers of dry cargo containers (consignees or its representatives –customs brokers, logistics operators, etc.).

- Segment: Importers who address dry cargo to APMTC's Temporary Depot.

- Temporary offer: Importers of dry cargo (consignees or its representatives –customs brokers, logistics operators, etc.) who guarantee minimum amounts equal to or greater than 200, 300, 800, 1.6 thousands and 3 thousand containers through the APMTC's Temporary Depot will be granted discounts and extensions of the operating area (taking into account the 10 days including in the Integrated Service of Import Temporary Depot, sections 1.4.1.1 and 1.4.1.2 of the Tariff List) as below:

- ≥ 200 to 299 containers = 10 extra free days (resulting in a total of 20 free days)
- ≥ 300 to 799 containers = USD 40 discount from the price set out in sections 1.4.1.1 and 1.4.1.2 of the Tariff List for import containers and 10 extra free days to those already granted in subsections 1.4.1.1 and 1.4.1.2 of the Tariff (reaching a total of 20 free days)
- ≥ 800 to 1,599 containers = USD 40 discount from the price set out in sections 1.4.1.1 and 1.4.1.2 of the Tariff List for import containers and 20 extra free days to those already granted in subsections 1.4.1.1 and 1.4.1.2 of the Tariff (reaching a total of 30 free days)
- $\geq 1,600$ to 2,999 containers = USD 50 discount from the price set out in sections 1.4.1.1 and 1.4.1.2 of the Tariff List for import containers and 20 extra free days to those already granted in subsections 1.4.1.1 and 1.4.1.2 of the Tariff (reaching a total of 30 free days)
- $\geq 3,000$ containers = USD 60 discount from the price set out in sections 1.4.1.1 and 1.4.1.2 of the Tariff List for import containers and 20 extra free days to those already granted in subsections 1.4.1.1 and 1.4.1.2 of the Tariff (reaching a total of 30 free days)

- Effective: Importers may apply or request this promotion until December 31, 2023.

- Requirements:

The minimum volumes of the offer will be accounted for annually. That is, in the 12 months following the date of the agreement (between APMTC and the user) to start accounting for the volumes (for example and as a hypothetical case: if the user's request for offer is accepted and it is agreed to start accounting on October 1, 2022, then the accounting will be made until September 30, 2023). For this purpose, users must submit to the commercial area of APMTC the projections of containers to be imported in the annual period indicated above, in order to determine the availability of space at the terminal.

In the event that the user fails to comply with entering the committed volume of containers into the DT 3014 within 12 months, an additional period of six (06) months may be granted to comply with the committed volume. This additional period will be granted as long as it has been verified that, in the first 12-month accounting period, the user has entered into the DT (3014) 100% of the containers unloaded by the North Terminal.

If, after the end of the twelve (12) months of accounting (or the 18 months in the cases that apply the extension of term), it is verified that the minimum volumes required for these offers have not been reached, APMTC will apply a penalty (the most favourable) to the user. Two types of penalties will be taken into account, but only one penalty will apply and it will be the one that is most favourable to the user. The penalties to be considered are as follows:

Penalty 1: APMTC will charge, as appropriate, the prices established in subsection 1.4.1 of the Tariff List in force at the time of verification (which refers to a package of services and the use of the operating area in temporary Depot 2014 for dry import containers). That is, in the case of discounts, the prices of subsections 1.4.1.1 and 1.4.1.2 of the Tariff List (which refers to the temporary depot service package that includes 10 days free of use of the operating area) will be charged. In the case of additional free days, and in case of non-compliance, the free days corresponding to the offer range (X) in which the volume finally entered will be assigned and will be charged for the days that are provided in excess of what the new default range (Y) would correspond to it; in case of not reaching any offer rank, the prices of subsections 1.4.1.3, 1.4.1.4 and 1.4.1.5 of the Tariff List will be charged (which refers to charging for the additional days used after the ten days included in the package of Temporary Deposit services of subsections 1.4.1.1 and 1.4.1.2). The prices of the penalty for discount and use of the operational area will be invoiced on the containers that have finally entered the DT 3014.

For example, if the user accessed the third range of the promotion (from 800 to 1,599 containers) and promised to enter 800 containers -for which a discount of USD 40 per container and 20 additional free days would correspond, which means reaching a total of 30 days of use of the operational area-, but in the accounting term it only manages to enter 700 containers. In this scenario, and referring to the discount granted, the user in the event of non-compliance will have to pay for the 700 containers entered into DT 3014 the prices of subsections 1.4.1.1 and 1.4.1.2 (which is nothing more than paying for each of the 700 containers entered the amount of USD 40). In the case of the free days granted, given that 700 containers were reached and this volume is in the second range of the promotion (i), only 10 additional free days would have corresponded (20 days of use of the operational area) and no the additional 20 days off (a total of 30 days of use of the operating area) that would have been granted; then, for the 700 containers, the user will be charged the prices of subsection 1.4.1.4 and 1.4.1.5 (which corresponds to the use of the operational area from day 21 to day 28 and from day 29 to day 30) in force at the time of verification.

Another example of penalty 1, if the user accessed the fourth range of the promotion (from 1,600 to 2,999 containers) and promised to enter 2,000 containers -for which a discount of USD 50 per container and 20 additional free days would apply, which means reaching a total of 30 days of use of the operational area-, but in the accounting term it only manages to enter 200 containers. In this scenario, and in the case of the discount, the user would have to pay for the 200 containers entered into DT 3014 the prices of subsections 1.4.1.1 and 1.4.1.2 (which is nothing more than paying USD 50 for each of the 200 containers entered). In the case of the free days granted, given that 200 containers were reached and this volume is not in any promotion range, then no additional free days would have corresponded to him; then, for each of the 200 containers and as appropriate, the user will have to pay the prices of subsection 1.4.1.3, 1.4.1.4 and 1.4.1.5 (which corresponds to the use of the operational area from day 11 to 20, from day 21 to 28 and from day 29 to day 30) in force at the time of verification.

Penalty 2: In the case of discounts, the user will pay the amount of the discount on the number of containers missing to reach the target committed to APMTC. In the case of the additional free days that have been granted, the penalty applies to the containers that have finally entered the DT 3014 and its application is the same as that described in penalty 1; that is, in case of non-compliance, the free days that correspond to the promotion range (X) in which the volume finally entered will be assigned and will be charged for the days that have been provided in excess to what would correspond to the new default range (Y); in case of not reaching any promotion rank, the prices of subsections 1.4.1.3, 1.4.1.4 and 1.4.1.5 of the Tariff will be charged (which refers to charging for the additional days used after the ten days included in the package of Temporary Deposit services of subsections 1.4.1.1 and 1.4.1.2).

For example, if the user accessed the third range of the promotion (from 800 to 1,599 containers) and promised to enter 800 containers -for which a discount of USD 40 per container and 20 additional free days would correspond, which means reaching a total of 30 days of use of the operational area-, but in the accounting term it only manages to enter 700 containers. In this scenario, and in the case of the discount, the user would have a deficit of 100 containers to reach the commitment of 800 containers, so under this scenario the user will have to pay USD 40 for each one of the 100 containers that he missed entering for achieve the promised target. In the case of the free days granted, given that 700 containers were reached and this volume is in the second range of the promotion (i), only 10 additional free days would have corresponded (20 days of use of the operational area) and no the additional 20 days off (a total of 30 days of use of the operating area) that would have been granted; then, for the 700 containers, the user will be charged the prices of subsection 1.4.1.4 and 1.4.1.5 (which corresponds to the use of the operational area from day 21 to day 28 and from day 29 to day 30) in force at the time of verification.

Another example of penalty 2, if the user accessed the fourth range of the promotion (from 1,600 to 2,999 containers) and promised to enter 2,000 containers -for which a discount of USD 50 per container and 20 additional free days would apply, which means reaching a total of 30 days of use of the operational area-, but in the accounting term it only manages to enter 200 containers. In this scenario, and in the case of the discount, the user would have a deficit of 1,800 containers to reach the commitment of 2,000 containers, so under this scenario the user will have to pay USD 50 for each one of the 1,800 containers that he missed entering for achieve the promised target. In the case of the free days granted, given that 200 containers were reached and this volume is not in any promotion range, then no additional free days would have corresponded to him; then, he will be charged to the user for the 200 containers, as appropriate, the prices of subsection 1.4.1.3, 1.4.1.4 and 1.4.1.5 (which corresponds to the use of the operational area from day 11 to 20, from day 21 to 28 and from day 29 to day 30) in force at the time of verification.

This offer unifies promotions 1.1 and 1.4 described in version 11.1 of the Tariff List without altering in any way the benefit granted to users.

In case of changes in the prices of the subsections 1.4.1.1 or 1.4.1.2 of the Tariff List, the discounts of USD 40, USD 50 or USD 60 apply to these modified prices in force at the time of invoicing. See invoicing details in the Regulation of Tariffs and Commercial Policy of APM Terminals Callao.

- This offer is subject to availability of space determined by APMTC.

1.2 Discount on Integrated Service Price and extension of free days – dry cargo export

- Target group: General users (exporters, forwarders or its representatives –customs brokers, logistics operators, etc. and other users) of containers with dry export cargo.

- Segment: Exporters who address dry cargo to APMTC's Temporary Depot.

- Temporary offer: Exporters (forwarders or its representatives –customs brokers, logistics operators, etc.) who guarantee minimum amounts of more than 300, 700, 800, and 3,000 containers using the APMTC's Temporary Depot will be granted discounts and extensions of the operating area use (taking into account the 7 days including in the Integrated Service of Export Temporary Depot: sections 1.4.2.1 and 1.4.2.2 of the Tariff List), according to the table below:

- ≥ 300 to 699 containers = 3 extra free days (resulting in a total of 10 free days)
- ≥ 700 hasta 799 contenedores = USD 20 discount from the price set out in sections 1.4.2.1 and 1.4.2.2 of the Tariff List for export containers and 3 extra free days (resulting in a total of 10 free days)
- ≥ 800 to 2,999 containers = USD 20 discount from the price set out in sections 1.4.2.1 and 1.4.2.2 of the Tariff List for export containers and 8 extra free days (resulting in a total of 15 free days)
- $\geq 3,000$ containers = USD 20 discount from the price set out in sections 1.4.2.1 and 1.4.2.2 of the Tariff List for export containers and 13 extra free days (resulting in a total of 20 free days)

- Effective: Exporters may apply or request this promotion until December 31, 2023.

- Requirements:

The minimum volumes of the offer will be accounted for annually. That is, in the 12 months following the date of the agreement (between APMTC and the user) to start accounting for the volumes (for example and as a hypothetical case: if the user's request for offer is accepted and it is agreed to start accounting on October 1, 2022, then the accounting will be made until September 30, 2023). For this purpose, users must submit to the commercial area of APMTC the projections of containers to be imported in the annual period indicated above, in order to determine the availability of space at the terminal.

In the event that the user fails to comply with entering the committed volume of containers into the DT 3014 within 12 months, an additional period of six (06) months may be granted to comply with the committed volume. This additional period will be granted as long as it has been verified that, in the first 12-month accounting period, the user has entered into the DT (3014) 100% of the containers loaded by the North Terminal.

If, after the end of the twelve (12) months of accounting (or the 18 months in the cases that apply the extension of term), it is verified that the minimum volumes required for these offers have not been reached, APMTC will apply a penalty (the most favourable) to the user. Two types of penalties will be taken into account, but only one penalty will apply and it will be the one that is most favourable to the user. The penalties to be considered are as follows:

Penalty 1: APMTC will charge, as appropriate, the prices established in subsection 1.4.2 of the Tariff List in force at the time of verification (which refers to a package of services and the use of the operating area in Temporary Depot 3014 for dry export containers). That is, in the case of discounts, the prices of subsections 1.4.2.1 and 1.4.2.2 of the Tariff List (which refers to the temporary depot service package that includes 7 days free of use of the operational area) will be charged. In the case of additional free days, and in case of non-compliance, the free days corresponding to the offer range (X) in which the volume finally entered will be assigned and will be charged for the days that are provided in excess of what the new default range (Y) would correspond to it; in case of not reaching any offer rank, the prices of subsections 1.4.2.3, 1.4.2.4, 1.4.2.5 and 1.4.2.6 of the Tariff List will be charged (which refers to charging for the additional days used after the seven days included in the package of Temporary Deposit services of subsections 1.4.2.1 and 1.4.2.2). The prices of the penalty for discount and use of the operational area will be invoiced on the containers that have finally entered the DT 3014.

For example, if the user accessed the third range of the promotion (from 800 to 1,599 containers) and promised to enter 800 containers -for which a discount of USD 20 per container and 08 additional free days would correspond, which means reaching a total of 15 days of use of the operational area-, but in the accounting term it only manages to enter 700 containers. In this scenario, and referring to the discount granted, the user in the event of non-compliance will have to pay for the 700 containers entered into DT 3014 the prices of subsections 1.4.2.1 and 1.4.2.2 (which is nothing more than paying for each of the 700 containers entered the amount of USD 20). In the case of the free days granted, given that 700 containers were reached and this volume is in the second range of the promotion (i), only 03 additional free days would have corresponded (10 days of use of the operational area in total) and no the additional 08 days off (a total of 15 days of use of the operating area) that would have been granted; then, for the 700 containers, the user will be charged the prices of subsection 1.4.2.4, 1.4.2.5 and 1.4.2.6 (which corresponds to the use of the operational area from day 11 to day 15) in force at the time of verification.

Another example of penalty 1, if the user accessed the fourth range of the promotion (equal to or more than 3 thousand containers) and promised to enter 4,000 containers -for which a discount of USD 20 per container and 13 additional free days would apply, which means reaching a total of 20 days of use of the operational area-, but in the accounting term it only manages to enter 200 containers. In this scenario, and in the case of the discount, the user would have a deficit of 3,800 containers to reach the commitment of 4,000 containers, so under this scenario the user will have to pay USD 20 for each one of the 3,800 containers that he missed entering for achieve the promised target. In the case of the free days granted, given that 200 containers were reached and this volume is not in any promotion range, then no additional free days would have corresponded to him; then, for each of the 200 containers and as appropriate, the user will have to pay the prices of subsection 1.4.2.3 and/or 1.4.2.4 (which corresponds to the use of the operational area from day 08 to 10 and from day 11 to day 20) in force at the time of verification.

Penalty 2: In the case of discounts, the user will pay the amount of the discount on the number of containers missing to reach the target committed to APMTC. In the case of the additional free days that have been granted, the penalty applies to the containers that have finally entered the DT 3014 and its application is the same as that described in penalty 1; that is, in case of non-compliance, the free days that correspond to the promotion range (X) in which the volume finally entered will be assigned and will be charged for the days that have been provided in excess to what would correspond to the new default range (Y); in case of not reaching any promotion rank, the prices of subsections 1.4.2.3 and 1.4.2.4 of the Tariff List will be charged (which refers to charging for the additional days used after the seven days included in the package of Temporary Deposit services of subsections 1.4.2.1 and 1.4.2.2).

For example, if the user accessed the third range of the promotion (from 800 to 1,599 containers) and promised to enter 800 containers -for which a discount of USD 20 per container and 08 additional free days would correspond, which means reaching a total of 15 days of use of the operational area-, but in the accounting term it only manages to enter 700 containers. In this scenario, and in the case of the discount, the user would have a deficit of 100 containers to reach the commitment of 800 containers, so under this scenario the user will have to pay USD 20 for each one of the 100 containers that he missed entering for achieve the promised target. In the case of the free days granted, given that 700 containers were reached and this volume is in the second range of the promotion (i), only 03 additional free days would have corresponded (10 days of use of the operational area in total) and no the additional 08 days off (a total of 15 days of use of the operating area) that would have been granted; then, for the 700 containers, the user will be charged the prices of subsection 1.4.2.4 (which corresponds to the use of the operational area from day 11 to day 15) in force at the time of verification.

Another example of penalty 2, if the user accessed the fourth range of the promotion (equal to or more than 3 thousand containers) and promised to enter 4,000 containers -for which a discount of USD 20 per container and 13 additional free days would apply, which means reaching a total of 20 days of use of the operational area-, but in the accounting term it only manages to enter 200 containers. In this scenario, and in the case of the discount, the user would have a deficit of 3,800 containers to reach the commitment of 4,000 containers, so under this scenario the user will have to pay USD 20 for each one of the 3,800 containers that he missed entering for achieve the promised target. In the case of the free days granted, given that 200 containers were reached and this volume is not in any promotion range, then no additional free days would have corresponded to him; then, for each of the 200 containers and as appropriate, the user will have to pay the prices of subsection 1.4.2.3 and/or 1.4.2.4 (which corresponds to the use of the operational area from day 08 to 10 and from day 11 to day 20) in force at the time of verification.

This offer unifies promotions 1.2 and 1.5 described in version 11.1 of the Tariff List without altering in any way the benefit granted to users.

In case of changes in the prices of the subsections 1.4.2.1 or 1.4.2.2 of the Tariff List, the discounts of USD 20 apply to these modified prices in force at the time of invoicing. See invoicing details in the Regulation of Tariffs and Commercial Policy of APM Terminals Callao.

- This offer is subject to availability of space determined by APMTC.

1.3 Discount on Integrated Service Price and extension of free days – Import/Export of dry cargo

- Target group: General users (importers/consignees and exporters/forwarders or its representatives – customs brokers, logistics operators, etc. – and other users) of containers with import/export dry cargo. If import containers only are mobilized, the discount on item 1.1 will be granted; and if export containers only are mobilized, the discount on item 1.2 will be granted.
- Segment: Users who address dry cargo to APMTC's Temporary Depot.
- Temporary offer: Users who mobilize import and export dry cargo containers together who guarantee minimum amounts equal or more than 300, 700, 800, 1600 and 3,000 containers through the APMTC's Temporary Depot will be granted discounts and extensions in the use of operational area with respect to the prices and days of use of free operating area considering in the Special Integrated Temporary Depot Service for Import and Export Dry Containers (Sections 1.4.1.1, 1.4.1.2, 1.4.2.1 and 1.4.2.2 of the Tariff List), according to the table below:
 - (i) ≥ 300 to 699 containers = 10 additional free days with respect to the free days of use of operational area indicated in sections 1.4.1.1 and 1.4.1.2 of the Tariff List for import containers (which results in a total of 20 free days) and 3 additional free days with respect to the free days indicated in sections 1.4.2.1 and 1.4.2.2 of the Tariff List for export containers (resulting in a total of 10 free days)
 - (ii) ≥ 700 to 799 containers = USD 40 discount and 10 additional free days with respect to the prices and free days indicated in sections 1.4.1.1 and 1.4.1.2 of the Tariff List for import containers (resulting in a total of 20 free days) and USD 20 discount and 3 additional free days with respect to the prices and days indicated in sections 1.4.2.1 and 1.4.2.2 of the Tariff List for export containers (resulting in a total of 10 free days)
 - (iii) ≥ 800 to 1,599 containers = USD 40 discount and 20 additional free days with respect to the prices and free days indicated in sections 1.4.1.1 and 1.4.1.2 of the Tariff List for import containers (resulting in a total of 30 free days) and USD 20 discount and 8 additional free days with respect to the prices and days indicated in sections 1.4.2.1 and 1.4.2.2 of the Tariff List for export containers (resulting in a total of 15 free days)
 - (iv) $\geq 1,600$ to 2,999 containers = USD 50 discount and 20 additional free days with respect to the prices and free days indicated in sections 1.4.1.1 and 1.4.1.2 of the Tariff List for import containers (resulting in a total of 30 free days) and USD 20 discount and 8 additional free days with respect to the prices and days indicated in sections 1.4.2.1 and 1.4.2.2 of the Tariff List for export containers (resulting in a total of 15 free days)
 - (v) $\geq 3,000$ containers = USD 50 discount and 20 additional free days with respect to the prices and free days indicated in sections 1.4.1.1 and 1.4.1.2 of the Tariff List for import containers (resulting in a total of 30 free days) and USD 20 discount and 13 additional free days with respect to the prices and days indicated in sections 1.4.2.1 and 1.4.2.2 of the Tariff List for export containers (resulting in a total of 20 free days)
- Effective: Users may apply or request this offer until December 31, 2023.
- Requirements:

The minimum volumes of the offers will be accounted for annually; that is to say, in the 12 months following the date of the agreement (between APMTC and the user) to start counting the volumes (for example and as a hypothetical case, if the user's request for promotion is accepted and it is agreed that the posting on October 1, 2022, then the accounting will be made until September 30, 2023). For this purpose, users must submit to the commercial area of APMTC the projections of containers that will be imported and exported in the annual period indicated above, in order to determine the availability of space in the terminal.

In the event that the user fails to comply with entering the committed volume of containers into the DT 3014 within 12 months, an additional period of six (06) months may be granted to comply with the committed volume. This additional period will be granted as long as it has been verified that, in the first 12-month accounting period, the user has entered into the DT (3014) 100% of the containers loaded and unloaded by the North Terminal.

If, after the end of the twelve (12) months of accounting (or the 18 months in the cases that apply the extension of term), it is verified that the minimum volumes required for these offers have not been reached, APMTC will apply a penalty (the most favourable) to the user. Two types of penalties will be taken into account, but only one penalty will apply and it will be the one that is most favourable to the user. The penalties to be considered are as follows:

Penalty 1: APMTC will charge, as appropriate, the prices established in the subsections 1.4.1 and 1.4.2 of the Tariff List in force at the time of verification (which refers to a package of services and the use of operational area in Temporary Depot 3014 for dry import and export containers). That is, in the case of discounts, the prices of subsections 1.4.1.1 and 1.4.1.2 of the Tariff List (which refers to the temporary depot service package that includes 10 days free of use of the operating area) for the case of imports and the prices of subsections 1.4.2.1 and 1.4.2.2 of the Tariff List (which refers to the temporary depot service package that includes 07 days free of use of the operational area) for the case of exports will be charged. In the case of additional free days, and in case of non-compliance, the free days corresponding to the promotion range (X) in which the volume finally entered will be assigned, while for the days that have been provided in excess (additional) to which the new range (X) is granted, the respective charge will be made for those days of excess, in case of not reaching any promotion range, the prices of subsections 1.4.1.3, 1.4.1.4 and 1.4.1.5 of the Tariff List will be charged in the case of imports (which refers to charging for the additional days used after the ten days included in the Temporary Depot service package of subsections 1.4.1.1 and 1.4.1.2) and the prices of subsections 1.4.2.3 y 1.4.2.4 of the Tariff List for the case of export (which refers to be charged for the additional days used after the seven days included in the Temporary Depot service package of subsections 1.4.2.1 and 1.4.2.2). The prices of the penalty for discount and use of the operational area will be imposed on the containers that have finally entered the DT 3014.

For example, if the user accessed the fourth range of the promotion (from 1,600 to 2,999 containers) and promised to enter 2 thousand containers (1 thousand of import and 1 thousand of export) -therefore, in the case of imports, a discount of USD 50 per container and 20 additional free days would correspond, which means reaching a total of 30 days of use of the operational area, and in the case of exports, a discount of USD 20 per container and 08 additional free days, which means reaching a total of 15 days of use of the operational area-, but in the accounting term it only manages to enter 750 containers (400 of import and 350 of export). In this scenario, and with regard to the discount granted, the user in case of non-compliance will have to pay, for the 400 import containers entered into the DT 3014, the prices of subsections 1.4.1.1 and 1.4.1.2 (which is nothing other than paying for each of the 400 containers entered the amount of USD 50) and, for the 350 export containers, he will have to pay the prices of the subsections 1.4.2.1 and 1.4.2.2 of the Tariff List (which is nothing more than paying for each of the 350 containers received the amount of USD 20). In the case of the free days granted, while for the additional 20 free days were granted in case of importation (30 days of use of the operating area in total) and 8 additional free days in case of export (15 days of use of operational area in total); however, since 750 containers were reached and this volume is in the second offer range (ii), in the case of importation, only 10 additional free days would have corresponded (20 days of use of the operational area in total) and, in the case of export, 3 additional days off (10 days of use of the operating area in total); then the 400 import containers will be charged for use of operational area from days 21 to 30 that they have used (i.e. they will be charged the price of subsection 1.4.2.4 as appropriate).

Penalty 2: In the case of discounts, the user will pay the amount of the discount on the number of containers missing to reach the target committed to APMTC. In the case of the additional free days that have been granted, the penalty applies to the containers that have finally entered the DT 3014 and its application is the same as that described in penalty 1; that is, in case of non-compliance, the free days that correspond to the promotion range (X) in which the volume finally entered will be assigned and will be charged for the days that have been provided in excess to what would correspond to the new default range (X); in case of not reaching any promotion range, the prices of subsections 1.4.1.3, 1.4.1.4 and 1.4.1.5 will be charged in the case of imports (which refers to charging for the additional days used after the ten days included in the Temporary Depot service package of subsections 1.4.1.1 and 1.4.1.2) and the prices of subsections 1.4.2.3 y 1.4.2.4 of the Tariff List for the case of export (which refers to be charged for the additional days used after the seven days included in the Temporary Depot service package of subsections 1.4.2.1 and 1.4.2.2).

For example, if the user accessed the fourth range of the promotion (from 1,600 to 2,999 containers) and promised to enter 2 thousand containers (1 thousand of import and 1 thousand of export) -therefore, in the case of imports, a discount of USD 50 per container and 20 additional free days would correspond, which means reaching a total of 30 days of use of the operational area, and in the case of exports, a discount of USD 20 per container and 08 additional free days, which means reaching a total of 15 days of use of the operational area-, but in the accounting term it only manages to enter 750 containers (400 of import and 350 of export). In this scenario, and with regard to the discount granted, the user will have a deficit of 600 import containers and 650 export containers; therefore, the user will have to pay USD 50 for each of the 600 import containers and USD 20 for each of the 650 export containers that were not entered to reach the agreed objective. In the case of the free days granted, the commitment was to be located in the offer rank i, for which an additional 20 free days were granted in case of importation (30 days of use of the operating area in total) and 8 additional free days in case of export (15 days of use of operational area in total); however, since 750 containers were reached and this volume is in the second offer range (ii), in the case of importation, only 10 additional free days would have corresponded (20 days of use of the operational area in total) and, in the case of export, 3 additional days off (10 days of use of the operating area in total); then the 400 import containers will be charged for use of operational area from days 21 to 30 that they have used (i.e. they will be charged, as appropriate, the prices of the subsections 1.4.1.4 and 1.4.1.5) and 350 export containers will be charged for use of operational area from days 11 to 15 that they have used (i.e. they will be charged the price of subsection 1.4.2.4 as appropriate).

This offer unifies promotions 1.3 and 1.6 described in version 11.1 of the Tariff List without altering in any way the benefit granted to users.

In case of changes in the prices of the subsections 1.4.1 or 1.4.2 of the Tariff List, the discounts apply to these modified prices in force at the time of invoicing. See invoicing details in the Regulation of Tariffs and Commercial Policy of APM Terminals Callao.

- This offer is subject to availability of space determined by APMTC.

1.4 Discount on the price of integrated service and extension of free days – Import/Export of dry cargo (only for new customers and without penalty)

- Target group: General users (importers/consignees and exporters/forwarders or its representatives – customs brokers, logistics operators, etc. – and other users) of containers with import/export dry cargo. This offer is independent of the offers listed above (1.1 to 1.3); that is, those who are granted this promotion will not be eligible for offers from 1.1 to 1.3. Applies to new users.
- Segment: Users who address dry cargo to APMTC's Temporary Depot.
- Temporary offer: Users who mobilize import and export dry cargo containers who guarantee minimum amounts equal or more than 150, 400, 800 and 1,500 containers through the APMTC's Temporary Depot will be granted a discount on the price of the Special Integrated Temporary Depot Service for Import and Export Dry Containers (Sections 1.4.1.1, 1.4.1.2, 1.4.2.1 and 1.4.2.2 of the Tariff List) and an extension of days free of use of operational area, according to the table below:
 - (i) ≥ 150 to 399 containers = For import containers a discount of USD 40 on the price indicated in sections 1.4.1.1 and 1.4.1.2 of the Tariff List and 10 free days in addition to those already granted in sections 1.4.1.1 and 1.4.1.2 of the Tariff List (reaching a total of 20 free days); while for export containers a discount of USD 20 on the price indicated in sections 1.4.2.1 and 1.4.2.2 of the Tariff List and 3 free days in addition to those already granted in sections 1.4.2.1 and 1.4.2.2 of the Tariff List (reaching a total of 10 free days)
 - (ii) ≥ 400 to 799 containers = For import containers a discount of USD 40 on the price indicated in sections 1.4.1.1 and 1.4.1.2 of the Tariff List and 20 free days in addition to those already granted in sections 1.4.1.1 and 1.4.1.2 of the Tariff List (reaching a total of 30 free days); while for export containers a discount of USD 20 on the price indicated in sections 1.4.2.1 and 1.4.2.2 of the Tariff List and 8 free days in addition to those already granted in sections 1.4.2.1 and 1.4.2.2 of the Tariff List (reaching a total of 15 free days)
 - (iii) ≥ 800 to 1,499 containers = For import containers a discount of USD 50 on the price indicated in sections 1.4.1.1 and 1.4.1.2 of the Tariff List and 20 free days in addition to those already granted in sections 1.4.1.1 and 1.4.1.2 of the Tariff List (reaching a total of 30 free days); while for export containers a discount of USD 20 on the price indicated in sections 1.4.2.1 and 1.4.2.2 of the Tariff List and 8 free days in addition to those already granted in sections 1.4.2.1 and 1.4.2.2 of the Tariff List (reaching a total of 15 free days)

(Group 2) PROMOTION FOR REFRIGERATED CARGO CONTAINERS IN APM TERMINALS CALLAO

Dear customers and users,

APM Terminals Callao (APMTC) has arranged offers for containers full of export refrigerated cargo to be served by APM Terminals Callao (APMTC), either as a Port Terminal or through our Temporary Depot (code 3014), and that meet the considerations indicated lines below, depending on the type of operation.

2.1 For export containers that direct their cargo to the temporary depot of APMTC

- Target group: Exporters (forwarders or its representatives – customs brokers, logistics operators, etc. – and other users) of containers with refrigerated cargo (reefer container).
- Segment: Refrigerated cargo exporters directing their cargo to the APMTC's Temporary Depot (DT 3014)
- Temporary offer: Refrigerated cargo exporters who insure a minimum annual volume of 1,000 reefer containers through APMTC's Temporary Depot will be exempt of the late-delivery container shipping document surcharge (documentary LAR).
- Effective: Users may apply or request this offer from November 08, 2022 until May 19, 2023.
- Requirements: The minimum volumes of the offer will be accounted for annually; that is to say, in the 12 months following the date of the agreement (between APMTC and the user) to start counting the volumes (for example and as a hypothetical case, if the user's request for promotion is accepted and it is agreed that the posting on December 1, 2022, then the accounting will be made until November 30, 2023). For this purpose, users must submit to the commercial area of APMTC the projections of reefer containers that will be exported in the annual period indicated above, in order to determine the availability of space in the terminal. In the event that, after twelve (12) months of accounting, it is verified that the minimum volume required for the application of this offer has not been reached, APMTC will charge the surcharge of documentary LAR (subsection 9.3.3.1 of the Tariff List) in force at the time of verification and/or the offer will be cancelled.
- This offer is subject to availability of space determined by APMTC.

2.2 For export containers that use APMTC as temporary depot

- Target group: Exporters (shippers of the cargo or its representatives – customs agents, logistic operators or others) of grapes in containers with refrigerated cargo (reefer containers) with cold treatment and who make use of AMPTC temporary depot.
- Temporary offer: Exporters of grapes in 40 foot reefer containers (standard and high cubic capacity) with cold treatment will be charged the amount of USD 560 for the integrated temporary depot service (subsection 1.4.4.2), which includes an additional 3 days off of operational area use, reefer power supply, and monitoring and inspection; that is, they will be granted a total of 10 days of operational area use, 10 days of power supply and 10 days of inspection and monitoring.
- Effective: The offer may be requested from February 1 to February 10, 2023; while the price of USD 560 will apply to those containers loading from February 1, 2023 to April 30, 2023.
- This offer is subject to availability of space determined by APMTC.

2.3 For import containers that use APMTC as temporary depot

- Target group: Importers of dry cargo containers (consignees or its representatives – customs brokers, logistics operators, etc.) of containers with refrigerated cargo (reefer containers) that who address dry cargo to APMTC's Temporary Depot.
- Temporary offer: Importers who guarantee a minimum annual movement of 200 containers (40 feet) of refrigerated cargo will be granted a discount of USD 38.5 on the current prices, at the time of invoicing, for the package of services consisting of the integrated temporary storage service for import reefer containers (subsection 1.4.3.2), day 8 of operational area use (subsection 1.4.3.3), day 8 of reefer power supply (subsection 1.5.2.3) and day 8 of inspection and monitoring (subsection 1.5.2.4).
- Effective: The offer may be requested from August 02, 2023 to December 31, 2023
- Requirements:
 - The minimum volumes will be counted annually; that is to say, in the 12 months following the date of the agreement (between APMTC and the user) to start counting the volumes (for example and as a hypothetical case, if the user's request for offer is accepted and it is agreed that the posting on September 1, 2023, then the accounting will be made until August 30, 2024). For this purpose, users must submit to the commercial area of APMTC the projections of containers with import refrigerated cargo that will enter DT 3014 in the annual period indicated above, in order to determine the availability of space in the terminal.
 - In the event that, after twelve (12) months of accounting, it is verified that the minimum volumes required for the application of this offer has not been reached, APMTC will charge the USD 38.5 discount granted to each 40 foot refrigerated container.
- This offer is subject to availability of space determined by APMTC.

2.4 For import containers using APMTC as temporary depot (only for new users and no penalty)

- Target group: Importers of dry cargo containers (consignees or its representatives – customs brokers, logistics operators, etc.) of containers with refrigerated cargo (reefer containers) that who address dry cargo to APMTC's Temporary Depot. Applies for new users.
- Temporary offer: Importers who register a quarterly movement of 60 containers (40 feet) of refrigerated cargo will be granted a discount of USD 38.5 on the current prices, at the time of invoicing, for the package of services consisting of the integrated temporary storage service for import reefer containers (subsection 1.4.3.2), day 8 of operational area use (subsection 1.4.3.3), day 8 of reefer power supply (subsection 1.5.2.3) and day 8 of inspection and monitoring (subsection 1.5.2.4).
- Effective: The offer may be requested from August 02, 2023 to December 31, 2023
- Requirements:
 - The minimum volumes will be counted in the 03 months following the date of the agreement (between APMTC and the user) to start counting the volumes (for example and as a hypothetical case, if the user's request for offer is accepted and it is agreed that the posting on September 1, 2023, then the accounting will be made until November 30, 2023).

This offer is not subject to an agreement or mandatory commitment of movements by the user against APM Terminals Callao, which means that in case of non-compliance there will be no penalty. In the event that within the period of 3 months it is observed that the user does not reach the volume of the offer, then APMTC will cancel the offer to the user.

(Group 3) OFFER FOR PROMOTION FOR CONSOLIDATION/DESCONSOLIDATION OF CONTAINERS AND FOR USERS WHO HAVE ACCESSED THE PROMOTIONS OF GROUP 1 OF DT 3014

Dear customers and users,

APM Terminals Callao (APMTC) has arranged offers for all those users who request a package of services and have requested and accessed the offers provided in Group 1, but referred specifically to the offers related to the use of the Temporary Depot (code 3014); that is, it does not apply to the offers of Group 1 that refer to the use of APMTC as a port terminal. Offers refer to discounts (implying lower prices) on the aggregate price that the user would pay for the package of services consisting of any of the services specified in the Group 1 offer plus the consolidation/deconsolidation service (in any of the forms specified in subsections 1.5.3.4 to 1.5.3.9 of the Tariff List). The details of the offers for the package requested by the user are as detailed below:

- Target group: Users who have agreements or have accessed offers (set out in group 1) regarding the use of APMTC DT 3014
- Temporary offer:
 - i) **Up to 99 operations:** Discount of USD 30 off the global price that would be paid with any of the modalities of the Group 1 or Group 2 offers plus the consolidation/deconsolidation service of subsections 1.5.3.4 to 1.5.3.9 of the Tariff List. For example, if a user has accessed to section ii of offer 1.1 of Group 1 offers (which grants a discount of USD 40 on the prices of subsections 1.4.1.1 or 1.4.1.2 and 20 days free of storage), then he would have to assume a fee of USD 262.1 per 20-foot container and if he additionally request deconsolidation with a forklift of one of their containers, he would have to pay an additional USD 176 (subsection 1.5.3.4 of the Tariff List) for a total of USD 438.1; however, with this offer and rank number of consolidation or deconsolidation operations the user will have to assume a fee of USD 408.1 per 20ft container (in the case of 40ft the fee with this promotion and example given will be USD 541.7)
 - ii) **Between 100 to 290 operations:** Discount of USD 50 off the global price that would be paid with any of the modalities of the Group 1 or Group 2 offers plus the consolidation/deconsolidation service of subsections 1.5.3.4 to 1.5.3.9 of the Tariff List. For example, if a user has accessed to section i of offer 1.1 of Group 1 offers (which grants a discount of USD 40 on the prices of subsections 1.4.1.1 or 1.4.1.2 and 20 days free of storage), then he would have to assume a fee of USD 262.1 per 20-foot container and if he additionally request deconsolidation with a forklift of one of their containers, he would have to pay an additional USD 176 (subsection 1.5.3.4 of the Tariff List) for a total of USD 438.1; however, with this offer and rank number of consolidation or deconsolidation operations the user will have to assume a fee of USD 388.1 per 20ft container (in the case of 40ft the fee with this promotion and example given will be USD 521.7)

ii) **> 300 operations:** Discount of USD 70 off the global price that would be paid with any of the modalities of the Group 1 or Group 2 plus the consolidation/deconsolidation service of subsections 1.5.3.4 to 1.5.3.9 and 1.5.3.13 of the Tariff List. For example, if a user has accepted to section iv of offer 1.1 of Group 1 offers (which grants a discount of USD 50 on the prices of subsections 1.4.1.1 or 1.4.1.2 and 30 days free of storage), then he would have to assume a fee of USD 252.1 per 20-foot container and if additionally request consolidation with a forklift of one of their containers, he would have to pay an additional USD 176 (subsection 1.5.3.4 of the Tariff List) for a total of USD 428.1; however, with this offer and rank number of consolidation or deconsolidation operations the user will have to assume a payment of USD 358.1 per 20ft container (in the case of 40ft fee with this promotion and example given will be USD 491.7)

- Effective: The offer is valid from August 02, 2023 to December 31, 2024.

- Requirements:

Any user who requested the service package (composed of group 1 offers plus the consolidation/deconsolidation service in any of its forms) will be granted an automatic discount of USD 30 regardless of the number of consolidation/deconsolidation operations. In case users want to access the discounts of offers i and ii, they will have to apply to APMTC and commit to the minimum operations numbers established in these offers.

The number of deconsolidation/consolidation operations of promotions i and ii will be counted considering the accounting period established in groups 1 and 2 of the offers. For example, if a user has an agreement, in group 1 or 2 of offers, whose accounting is annual and it has started on April 1, 2023 and ends on March 30, 2024, then the number of consolidation/deconsolidation operations will be accounted for within the last period described. Another example, if the agreement for group 1 or 2 of offers was semiannual accounting and has a start date of September 1, 2023 and an end date of February 28, 2024, then the accounting of the number of operations will be carried out within of this last period described.

APMTC will carry out a review every three (03) months of the volume of containers moved by the user who requested temporary offers i and ii; if it is verified, during the review, that the user will not be able to meet the required annual volume, then APMTC may cancel the offer. In this regard, if at least 15% of the minimum annual volume required is not reached in the first revision, temporary offer i and/or ii will be cancelled; if at least 40% of the minimum annual volume required is not reached in the second revision, temporary offer i and/or ii will be cancelled; if at least 65% of the required annual volume is not reached in the third revision, temporary offer i and/or ii will be cancelled.

This offer will be subject to space availability confirmed by APMTC

(iii) Likewise, users who comply with the weekly average movement of 800 containers, during an annual period, will be exempted from the container status change surcharge.

- Effective: The offer may be requested from November 15, 2023 to January 31, 2024

For users who have applied for this offer before 31 December 2022, the validity is as follows: (i) is valid from August 01, 2022 to July 31, 2023 and the offer (ii) is valid from February 01, 2023 to July 31, 2023

For users who request this promotion between April 11, 2023 and June 30, 2023, the validity of (i) and (ii) is annual and starts from the date of agreement between the user and APMTC.

- Requirements:

The average weekly volume shall be counted and calculated within the annual period agreed between APMTC and the user (for example and as a hypothetical case; if the user's request for offer is accepted and it is agreed that the accounting will start on December 1, 2023, then the accounting will be carried out until November 30, 2024). All types of transshipment (full cycle or inter-terminal) shall be accounted. Accounting is per container; for example, during this annual period the user could move a weekly average of 750 full cycle containers and 50 inter-terminal containers, which add up to a weekly average of 800 containers (which results in a weekly average of 1,550 movements; 1,500 full cycle movements and 50 inter-terminal movements). The average weekly count is calculated by taking into account the total number of transshipment containers moved during the annual period and is divided by the number of weeks in that period (which is 52 weeks). For this purpose, users should submit to the APMTC commercial area the projections of transshipment containers that they will be mobilize during the annual period indicated above, in order to determine the availability of terminal space. In the event that, after twelve (12) months of accounting, it is verified that the minimum volume required for the application of this offer has not been reached, APMTC will charge the standard container service rate (Subsections 1.1.2.7 and 1.1.2.8 of the Tariff List) in force at the time of verification and the additional days used after the mandatory 48 free hours offered by the standard transshipment container service and/or the offer will be cancelled.

APMTC will carry out a review every three (03) months of the weekly average of the transshipment containers mobilized by the user who requested the offer; if it is verified, during the review, that the user has not complied with the required weekly average, then APMTC may cancel the offer.

- This offer will be subject to space availability confirmed by APMTC

8.2 Second offer: two types of discounts on standard service, 14 days free of use of operating area, free pool and exemption from change of status

- Target group: Users (shipping lines or its representatives) that move transshipment containers through the North Multi-purpose Terminal

- Temporary offer: Users who move transshipment containers equal to or greater than 1,800 weekly average containers, over a period of one year, will be granted similar discounts or benefits as offer 8.1 but an additional discount is added to the standard service tariff that will be reflected in discount amounts and other additional benefits. The details of the discounts and benefits of this offer are as follows:
 - Charge of an initial offer tariff of USD 90 for standard 20-foot transshipment container service (Section 1.1.2.7 of the Tariff List) and USD 120 for standard 40-foot transshipment container service (Section 1.1.2.8 of the Tariff List).
 - Additional discount of USD 35 per container on the offer tariffs described in item i), but which may be given for a maximum of 17,715 containers in each quarter during the annual period of the offer. This additional discount, which will be applied for a period of one year, will be for one time only; that is, it will not apply in case of renewal of this promotion.
 - Granting of 14 free days of use of the operational area (which represents 12 additional free days to the 48 free hours currently granted) for both container sizes (20 and 40 feet).
 - Granting of a free pool of 300 TEU's (use of operational area of 300 TEU's of transshipment without time limit). This free pool is granted to those containers that have exceeded the 14 days of use of the operational area.
 - Exemption from payment of container status change surcharge.
- Effective: The offer may be requested from April 11, 2023 to December 31, 2023

- Requirements:

The average weekly volume will be counted and calculated within the annual period agreed by APMTC and the user, which may be the earliest date to start counting on April 1, 2023 (for example and as a hypothetical case: if the user's request for offer is accepted and it is agreed that the accounting will start on 1 April 2023, then the accounting will be carried out until March 31, 2024. As a second hypothetical example, if the user's offer request is accepted and it is agreed to start accounting on 1 June 2023, then accounting will be done until 31 May 2024). All types of transshipment (full cycle or inter-terminal) shall be accounted. Accounting is per container, for example, during this annual period the user could move a weekly average of 1,700 full cycle containers and 100 inter-terminal containers, which add up to a weekly average of 1,800 containers (which results in a weekly average of 3,500 movements; 3,400 full cycle movements and 100 inter-terminal movements). The average weekly count is calculated by taking into account the total number of transshipment containers moved during this annual period and is divided by the number of weeks in that period (which is 52 weeks). For this purpose, users should submit to the APMTC commercial area the projections of transshipment containers that they will mobilize during the annual period indicated above, in order to determine the availability of terminal space. APMTC will carry out a review every three (03) months of the weekly average of the transshipment containers mobilized by the user requesting the offer; if it is verified, during the review, that the user has not met the required weekly average, then APMTC may cancel the offer.

APMTC will carry out a review every three (03) months of the weekly average of the transshipment containers mobilized by the user requesting the promotion; if it is verified, during the review, that the user is meeting the required weekly average, then APMTC will apply for that quarterly period and with respect to the item i) discount, the additional discount of USD 35 (on the initial promotional tariffs for standard service of containers of item i) over a maximum of 17,715 transshipment containers. This quarterly discount, which will apply to a maximum of 17,715 containers, will be granted in the form of a credit note or another modality agreed upon by the shipping line and APMTC.

In case of containers that exceed the 14 days free of use of the operating area and the free pool of 300 TEU, the user will have to assume the payment of the tariff applicable from the 15th day onwards (subsections 1.2.6.4 and 1.2.7.4 of the Tariff List). However, if the user mobilizes more than 1,800 containers per week on average, APMTC may extend, subject to space availability, the days of use of the operational area for those containers that remain more than 14 days and cannot access the free pool. The extension days would be up to seven days at most. If APMTC grants this benefit to a user, it will be applied to other users under similar conditions.

- This offer will be subject to space availability confirmed by APMTC

(Group 9) OFFER FOR GASIFICATION OF FULL CONTAINERS

Dear customers and users,

APM Terminals Calao (APMTC) has set an offer for volume for those users (shipping lines) that demand the gasification service of full containers that requires the joint supply of N2 and CO2 as a port terminal. This offer is governed by the following terms:

- > 150 containers quarterly - Tariff of USD 450 which will include the following: combined gasification service of N2 and CO2, change of status (in case of occurrence) and the benefit of granting customers (exporters) of shipping lines 2 free days of use of the operating area in addition to the 72 hours granted as part of the standard shipping container service (up to a total of 5 free days of use of the operating area as a Port Terminal).

- Effective: The offer may be requested from July 01, 2023 to December 31, 2023

- Requirements:

The minimum volumes of promotions will be counted on a quarterly basis; that is, in the 03 months following the date of the agreement (between APMTC and the user) to start counting the volumes (for example and as a hypothetical case: if the user's request for promotion is accepted and it is agreed that the accounting on May 1, 2023, then the accounting will be carried out until July 31, 2023). For this purpose, users must submit to the commercial area of APMTC the projections of containers that will demand the gasification service in the six-monthly period indicated above, in order to determine the availability of space in the terminal.

If, after the three (03) months of accounting, it is verified that the minimum volumes required for the application of these offers have not been reached, APMTC will charge the maximum tariff in subsection 1.2.13.1 in effect at the time of verification and the charge of the change of status surcharge (subsection 9.3.1.1 of the Tariff List) in effect at the time of billing will apply.

- This offer will be subject to space availability confirmed by APMTC

(Group 10) OFFER FOR EMPTY EXPORT CONTAINERS

Dear customers and users,

APM Terminals Calao (APMTC) has set an extension of free hours of stay for those empty containers that are loaded (exported) by the North Multipurpose Terminal. This offer is governed by the following terms:

- Target group: Users (shipping lines or their representatives) that move empty export containers through the Multipurpose North Terminal

- Temporary offer: Shipping lines that move, during an annual period, a volume equal to or greater than 25,000 empty export containers will be granted the right to request, for each vessel, an extension of 24 hours of free time that are additional to the hours of use of operating area free set out in subsection 1.2.5.1 of the Tariff List (which are 72 hours of free time), which means that shipping lines that meet the volume of containers indicated above will, in principle, be granted 96 hours of free time of use of the operating area.

- Effective: The offer is valid from February 24, 2023 to February 22, 2024.

- Requirements:

The free time of 96 hours of operational area use will have to be requested by each vessel that docks. In those cases where the shipping line did not request the application of the offer to a particular vessel, then that vessel will only be granted the free time set out in subsection 1.2.5.1 of the Tariff List (that is, 72 hours free of use of the operating area), charging for use of the operating area from day 4 to empty containers that are shipped to that particular vessel.

The minimum volume of 25 thousand containers will be accounted during the period of validity of the offer; that is, between February 24, 2023 until February 23, 2024.

If, during weekly or monthly reviews of the volume of empty containers exported by shipping lines, it is found that the shipping line will not reach the minimum volume required during the annual period, then the offer to that shipping line will be cancelled.

- This offer will be subject to space availability confirmed by APMTC

(Group 11) PROMOTION FOR SHIPPING LINES THAT MOVE CONTAINERS THROUGH BERTH 5A

Dear customers and users,

APM Terminals Calao (APMTC) has set offers for standard services for those shipping lines that move containers through berth 5A of the North Multipurpose Terminal. This offer, which applies only as a port terminal, is governed under the following terms:

- Target group: Shipping lines or their representatives that move containers (full and empty) through berth 5A of the Multipurpose North Terminal

- Temporary offer:

The shipping line moving import/export/transshipment containers through berth 5A shall be granted discounts on the effective standard service tariffs (with general promotion) charged per berth usage, empty containers and trans-shipment containers (full and empty) referred to in subsections 1.1.1.1 and 1.1.2.5 to 1.1.2.8 of the Tariff List, but subject to the following: that a period of twelve (12) months the movement of full reefer containers by berth 5A represents at least 35% of the total full containers moved by this berth or that the vessels remain on average less than 16 hours at the berth (short-stay ships). The discounts in the form of lower tariffs will be the following:

For use or rental of berth (subsection 1.1.1.1 of the Tariff List): USD 0.40 per meter-length-hour

For empty containers (subsections 1.1.2.5 and 1.1.2.6 of the Tariff List): USD 52.44 per empty 20-foot container and USD 96.85 per empty 40-foot container

For transshipment containers (subsections 1.1.2.7 and 1.1.2.8 of the Tariff): USD 47.60 per 20-foot container (full and empty) and USD 71.20 per 40-foot container (full and empty)

- Effective: The offer may be requested from September 08, 2023 to December 31, 2023

- Requirements:

The accounting and calculation of 35% or an average of 16 hours per arrival will be made with respect to the annual period agreed by APMTC and the user (for example and as a hypothetical case: if the user's promotion request is accepted and it is agreed that the accounting will start on September 10, 2023, then the accounting will be carried out until September 09, 2024). For this purpose, users should send to the commercial area of APMTC the projections of containers they will be moving around berth 5A during the annual period indicated above, in order to determine the availability of space at the terminal.

APMTC will conduct quarterly reviews of this promotion. If during the reviews it is found that none of the conditions have been met (minimum 35% reefer or short stay average), APMTC will cancel the promotion.

- This offer will be subject to space availability confirmed by APMTC

(Group 12) SPECIAL OFFER FOR BREAK BULK CARGO - TEMPORARY DEPOSIT OF APM TERMINALS CALLAO

Dear customers and users,

APM Terminals Calao (APMTC) has set a series of special offers for the special service "Integrated Temporary Depot Service" for break bulk cargo. It should be noted that each of the special offers is independent (it is not cumulative); for example, if the user chooses promotion 12.4 he would not be able to apply to promotion 12.1, 12.2 or 12.3. Special offers are governed by the following terms:

12.1 Extension of free days applicable to break bulk cargo in general and to subsection 2.4.1.1 of the Tariff List

- Target group: Users (importers/consignees and Exporters/forwarders or its representatives - customs brokers, logistics operators, etc.) of break bulk cargo in general and that demand the integrated service of temporary storage with 10 days of use of the operational area (subsection 2.4.1.1 of the Tariff List)

- Segment: Users entering large volumes break bulk cargo at APM Terminals Calao Temporary Depot (DT 3014)

- Temporary offer: Users who guarantee minimum amounts of more than 2,500 and 3,500 tonnes using the APMTC's Temporary Depot will be granted an extension of the operating area use (taking into account the 10 days including in the Integrated Service of Temporary Depot: sections 2.4.1.1 of the Tariff List), according to the table below:

(i) > 2,500 to 3,499 tonnes = 5 additional days off (on top of the 10 already granted in subsection 2.4.1.1 of the Tariff List)

(ii) > 3,500 tonnes = 10 additional days off (on top of the 10 already granted in subsection 2.4.1.1 of the Tariff List)

- Effective: Users may apply or request this promotion from August 02, 2022 until December 31, 2023.

- Requirements: The minimum volume of 2,500 or 3,500 tonnes will be accounted for annually, that is within twelve (12) months from the date of the agreement (between APMTC and the user) to commence the accounting of volumes (for example and as a hypothetical case: if the user's promotion request is accepted and it is agreed that the accounting will commence on September 1, 2023, then the accounting will be carried out until August 31, 2024). For this purpose, users should submit to APMTC's commercial area the projections of tonnes they will import during the period indicated above, in order to determine the availability of terminal space. If, after the twelve (12) months of accounting, it is verified that the minimum volumes required for the application of these offers have not been reached, APMTC will charge the list price set out in subsection 2.4.1.2 of the Tariff List (use of area for 11-20 days of the Integrated Temporary Depot Service) in force at the time of verification.

- This offer will be subject to space availability confirmed by APMTC
