However, if the user mobilizes more than 1,800 containers per week on average, APMTC may extend, subject to space availability, the days of use of the operational area for those containers that remain more than 14 days and cannot access the free pool. (Group 11) OFFER FOR EMPTY EXPORT CONTAINERS

Dear customers and users,

APM Terminals Calao (APMTC) has set an extension of free hours of stay for those empty containers that are loaded (exported) by the North Multipurpose Terminal. This offer is governed by the following terms:

- Target group: Users (shipping lines or their representatives) that move empty export containers through the Multipurpose North Terminal

- Temporary offer: Shipping lines that move, during an annual period, a volume equal to or greater than 25,000 empty export containers will be granted the right to request, for each vessel, an extension of 24 hours of free time that are additional to the hours of use of operating area free set out in subsection 1.2.5.1 of the Tariff List (which are 72 hours of free time), which means that shipping lines that meet the volume of containers indicated above will, in principle, be granted 96 hours of free time of use of the operating area. The detail of the offer is as follows:

(i) Movement of 500 empty export containers per vessel = Empty containers on this vessel will be granted a total of 96 hours of free operating area use (which represents an extension of 24 hours free from the 72 hours free granted under subsection 1.2.5.1 of the Tariff List).

(ii) Movement of 1,000 empty export containers per vessel = Empty containers on this vessel will be granted a total of 120 hours of free operating area use (which represents an extension of 48 hours free from the 72 hours free granted under subsection 1.2.5.1 of the Tariff List).

- Effective: The offer is valid from January 03, 2024 to December 31, 2024.

- Requirements:

The free time of 96 or 120 hours of operational area use will have to be requested by each vessel that docks. In those cases where the shipping line did not request the application of the offer to a particular vessel, then that vessel will only be granted the free time set out in subsection 1.2.5.1 of the Tariff List (that is, 72 hours free of use of the operating area), charging for use of the operating area from day 4 onwards to the empty containers that are loaded to that particular vessel.

The minimum volume of 25 thousand containers will be accounted during the period of validity of the offer, that is, between January 03, 2024 until December 31, 2024.

If, during weekly or monthly reviews of the volume of empty containers exported by shipping lines, it is found that the shipping line will not reach the minimum volume required during the annual period, then the offer to that shipping line will be cancelled.

- This offer will be subject to space availability confirmed by APMTC

For this purpose, users should send to the commercial area of APMTC the projections of containers they will be moving around berth 5A during the annual period indicated above, in order to determine the availability of space at the terminal.

APMTC will conduct quarterly reviews of this promotion. If during the reviews it is found that none of the conditions have been met (minimum 35% reefer or short stay average), APMTC will cancel the promotion.
