APM Terminals to Observe 4th Annual Global Safety Day

- **All facilities in the APM Terminals Global Terminal Network to participate in coordinated safety-themed events and training to raise port industry safety performance and standards**

The Hague, Netherlands – October 12th will be observed as Global Safety Day within the APM Terminals Global Port and Terminal Network, which is currently comprised of over 50 facilities around the world, employing more than 22,000 people. Since the inception of the Global Safety Program in 2005, APM Terminals has achieved significant success in safety performance with individual facilities, and as an overall corporate entity, consistently earning national and industry safety awards and recognition.

2010 YTD metrics show APM Terminals has improved 29% over the same period in 2009 in port injuries. Annual safety benchmarking data recently released by the UK-based International Cargo Handling Association (ICHCA), representing more than 150 million TEUs handled, or approximately 30% of total global port throughput, revealed that APM Terminals consistently outperforms the industry with 0.57 injuries per 100,000 TEUs handled globally in 2009, as compared with an ICHCA membership average of 2.13 for the same period. Between 2008 and 2009, while ICHCA members demonstrated improvement in safety performance of 27%, APM Terminals achieved a 60% reduction in port-related accidents. The London-based TT Club has also taken note of APM Terminals performance when comparing the entire port industry's safety performance against peers and related industry benchmarks.

“Our policy is to never accept an unsafe condition and proactively engage in making every day a safe day” stated APM Terminals CEO Kim Fejfer, who has made Safety a component of the company's Corporate Social Responsibility (CSR) program for the past five years.

During this year's Global Safety Day observance each APM Terminals facility will work from a catalog of activities and safety education projects and exercises to be tailored to local needs. This year's theme is “Safety First, Always do YOU live up to it?” Topics to be covered include Work Processes, Risk Management, Personal Protective Equipment and Tools, Safety Awareness Activities, and External Parties, including all personnel conducting business on any APM Terminals work site, including contract workers, outside truck drivers and visitors.

Safety training for outside drivers will be aggressively pursued as terminals work to reduce accidents and injuries. An analysis of safety APM Terminals' performance reporting has

indicated that nearly half of all port and terminal accident risk (49%) is the result of vehicular traffic violations.

“We strive for zero injuries, and we will not let up until we have attained this goal” said Fejfer.

About APM Terminals

– providing the port infrastructure to drive global commerce

APM Terminals operates a Global Terminal Network of 50 terminals with 22,000 employees in 34 countries that provide the port infrastructure essential to international transportation and global economic growth. The liner shipping industry, served by APM Terminals and other operators, carries \$4.6 trillion worth of international trade - approximately one third of the total value of global commerce.

For logistics professionals, the Global Terminal Network plays an important role in supply chain management with location, capacity, flexibility and efficiency clearly linked to supply chain success and port-centric logistics.

Recent APM Terminals Safety Awards

2010

- **Zero Accident Award (Bronze Level)**
On September 3rd Thailand's Minister of Labor, Mr. Chalermchai Sri-on, presented the Zero Accident Award (Bronze Level) to Laem Chabang Terminal B-1 (LCB1) in recognition of Outstanding Safety Performance, with 1.4 million man-hours of work performed over the course of a year without any Lost-Time Injuries (LTI). Although 102 companies in Thailand were cited for this Bronze level distinction for 2010, LCB1 was notably the only marine terminal to have earned the Safety Award.

- **Safety at Sea International Award**
APM Terminals was named the winner of the Safety at Sea International (SASI) Award for 2010 in the category of Management and Operations by IHS/Fairplay. Presented in London on June 22nd, the award, which is presented annually, recognized the APM Terminals' company-wide Safety Culture program as "an initiative that demonstrates improved safe working practices or attitudes as a result of its implementation, either onshore or aboard-ship".

- **Pacific Maritime Association Safety Awards**
APM Terminals Los Angeles, Oakland and Tacoma were cited for their outstanding achievements in workplace safety for 2009, by the Pacific Maritime Association. For the third year in a row, Pier 400 (Los Angeles) won the First Place Safety Award in the Class A category for LA/Long Beach, and First Place Group A Container Company Coast Award. APM Terminals Oakland won the Class C area award for Northern California, also for the third consecutive year. The Oakland team was able to continuously improve the safety culture at the terminal despite the impending closure at year end. In addition, Tacoma was recognized with second place Washington Area and Coast-Level awards for Category C operators.

- **New York Shipping Association Safety Award**
For the third consecutive year, the New York Shipping Association has recognized APMT Elizabeth (Port Elizabeth, New Jersey) with an award for Lowest Lost Time Accidents Frequency in the Port of NY & NJ – Group A Facilities.

- **Moroccan National “*Safety at Work Award*”**
APM Terminals Tangier was named winner of the Moroccan National “*Safety at Work Award*” for 2009 on January 21st 2010 by the Ministry of Industry, Trade and New Technologies.
- **Kaohsiung Harbor Bureau Awards**
APM Terminals Kaohsiung was honored at the annual Kaohsiung Harbor Bureau Awards ceremony for “Continuous Safety Improvement”. This was the only safety award won by any of the 10 terminal operators at Taiwan’s largest container port.

2008

- **Pacific Maritime Association Awards**
APM Terminals Tacoma, Oakland, and Los Angeles were named winners of the PMA’s 2008 Safety Awards

2007

- **Pacific Maritime Association Safety Awards**
APM Terminals Tacoma, Oakland and Los Angeles were named winners of the 2007 Pacific Maritime Association Safety Awards.
