| 1.4 | Second weighting request referred to a container already placed in our facilities (Should be requested via email to <a href="mailto:vermasbcn@apmterminals.com">vermasbcn@apmterminals.com</a> ). In case of discrepancy between first and second weighing will apply the following cost whenever the difference is within the tolerance range, according SOLAS:<br>*For containers up to 10 tons, difference of gross mass +/- 500 KG.<br>*For containers exceeding 10 tons, difference of gross mass +/- 5%. | 22,06 € + 2 horizontal moves |
| 2.  | <b>VGM Communication</b>   |                              |
| 2.1 | VGM Communication is received before or within the first 24 hours of the container's entry into our facilities:  | No charge will be applied    |
| 2.2 | VGM Communication is received 24 hours after container's entry into our facilities:  | 35,52                        |
| 2.3 | If a container has a VGM Communication and a VGM modification is later received:   | 33,09                        |
| 3.  | <b>Other special cases</b>   |                              |
| 3.1 | Direct load truck - vessel: VGM should be declared via PORTIC. APM Terminals Barcelona won't accept Weighting Request for these containers.  |                              |
| 3.2 | Megatruck-duotrailer: The containers gated in the Terminal in duotrailer with Weighting Request, 2 additional horizontal moves will be invoiced to container's line.   |                              |
| 3.3 | IMO Cargo - Article 15: VGM should be declared via PORTIC. APM Terminals Barcelona won't accept Weighting Request for these containers.  |                              |
| 3.4 | OOG containers: VGM should be declared via PORTIC. APM Terminals Barcelona won't accept Weighting Request for these containers.  |                              |
| 3.5 | Terminal Transfers: Those containers gate in as Transshipment from any other Terminal, VGM must be declared either in the gate in document (Transport Order) or proceed with the communication or weighing request through usual channels 24 hours before the entrance of the container, in order to avoid any potential charges for late communication or late weighing request.  |                              |

---

**4.****Terms & Conditions**

---

4.1

Above mentioned tariffs are valid for containers entered gate in or by railway.

4.2

Invoices will be issued to the part that originally requested weighting or communicated VGM to the Terminal.

4.3

In the event of weighting request or communication is received by a part not identified as Terminal client, both actions will be rejected. The part interested will have to contact to Atencion Cliente Department (atencionclientebcn@apmterminals.com)

---

**5.****Operational Procedure for VGM**

---

5.1

All weighing request or VGM communication must be sent via PORTIC Applications. The terminal won't manage any order received outside the channels above mentioned (no email request will be accepted, except of second requests)

5.2

Weighting Requests:

5.2.1

APM Terminals Barcelona will manage weighting request for containers 20', 40' and 45' but not for those containers with over dimensions cargo.

5.2.2

APM Terminals Barcelona won't manage weighting request for OOG Containers.

5.2.3

If container number is unknown by the time of requesting weighting Service, the reference number of the weighting request must be the same as it is in Admitase document. Other way, the system won't match the request with the container and it won't be registered in our system.

5.2.4

Weighting request cancellation in ADMITASE: If after a weighing request it needs to be cancelled, it is mandatory to proceed with a Cancellation (not substitution) of Admitase document and issue a new one. Other way, the first request will prevail in the system and the container will be weighed and finally invoiced for the service given.

5.2.5

Cancellation of weighing request via PORTIC: they must be cancelled via PORTIC

5.2.6

Weighting request on weekend and holiday: Those containers scheduled to be loaded during the weekend won't be weighed automatically 12 hours before the start of Operations. The Terminal must receive the weighting request before 18:00 pm on Friday or the previous working day (for holidays).

5.2.7

Second weighting request: In the event of a verification request for VGM already given by the Terminal, formal request needs to be received by the following email address: vermasBCN@apmterminals.com. Additional cost as per 1.4

5.3

VGM Communications:

5.3.1

All VGM Communications must be declared without decimals and without rounding off the original VGM. No points or comas must be used.

5.3.2

APM Terminals Barcelona will accept VGM Communication until 12 hours before start of Operations. After this period, if container has been included in the loading list we will proceed as per point 1.3. (See tariffs)

5.3.3

If the VGM Communication is received in the loading list, the cost of this communication will be invoiced to the shipping line (or agent)
