

# APMT Gijón: Break Bulk Cargo

***“We help Break Bulk Cargo customers to achieve reduction in their transport and storage costs due to our yard capacity”***

## Why choose APM Terminals Gijón?

- ▶ Specialized equipment and experienced stevedoring teams
- ▶ Wide connection network
- ▶ Book direct for better value
- ▶ We'll help find the most cost-effective solution
- ▶ Warehousing and storage offered for OOG and Break Bulk

*Please contact our Customer Service department for any further information [atencionclientegijon@apmterminals.com](mailto:atencionclientegijon@apmterminals.com)*

## “We know how to handle your cargo with care”

Break Bulk cargo includes things like yachts, masts, industrial machines or train carriages. Break Bulk significantly exceeds the size and/or weight of a standard container and is therefore handled as non-unitised cargo and normally placed on a bed of flat racks with a large number of lashing points.

## Requirements:

- ▶ Loading plans, with lifting information.
- ▶ Ship stowage plans.
- ▶ Weight information and cargo measurements
- ▶ Instructions, if any, of the lashing.

## Request process

- ▶ To request a quotation, please contact our operations team.
