# E-Form 13 Import

**USER MANUAL** 

APM TERMINALS MUMBAI Navi Mumbai 400 707

### System Overview

E-Form 13 Import application simplifies the process of allocation and subdistribution of import Form 13s. This application provides a web based interface that allows user to input all information and store it electronically.

This application allows CFS to allot number of containers to all transporters and also allow CFS to create new transporter within them. CFS can also permit transporter to generate PIN for import boxes independently.

# **User Prerequisites**

User needs to be a registered customer with APM Terminals, Mumbai.

User should have valid web access Login ID and Password.

Login in Web Access through Company Website – <u>www.apmtmumbai.com</u>

Go to Login Tab

Click on Customer Login as below.
