

# Providing connectivity-edge for metal business

## APM Terminals Pipavav: An ideal port for export & import of metals

APM Terminals Pipavav, an all-weather deep-water port, is strategically located at the main maritime route, and provides easy access to all main shipping lines.

Whether local connectivity to the hinterland, or global connectivity to important eastern and western global markets, APM Terminals Pipavav adds a logistical and economical advantage to your business.

Drive-in container scanning which is digitally linked to the customs system via an API-based EDI solution for faster clearance
