

SCHEDULE OF RATES AND GENERAL TERMS & CONDITIONS FOR VGM SERVICES AT APMT VALENCIA FACILITIES

VALID FROM 01.01.2022 UNTIL 31.12.2022

1. Weighting Request

- Weighting Request is received before the container's entry into our facilities by truck, through Valenciaport platform (PCS) in the admission order (COPARN) of the container: **26,52€**
- Weighting Request is received before the container's entry into our facilities by rail, throughout PCS (indicated as well on the unloading lists sent to the email document.vlc@apmterminals.com) in the admission order (COPARN) of the container: **53,04€**
- Weighting Request refers to a container that is already placed in our facilities and should be requested through the email document.vlc@apmterminals.com: **26,52€ + 3 horizontal movements.**
- Weighting Request refers to a container that due to the dimensions of the cargo/truck cannot be weighted at gates and should be weighted once it is placed in the yard: **26,52€ + 3 horizontal movements according to the current rate + OOG surcharge according to the current rate. It should be requested through documentation department: document.vlc@apmterminals.com**

These tariffs are valid for all export container arrived at our facilities by Truck or by train.

2. Comunicación del VGM

VGM communication can be received by the admission order by the PCS, by VERMAS message, both before or after the container's entry into the Terminal or by the loading lists issued through the PCS.

- VGM Communication is received 24 hours before starting vessel operations - **no charge will be applied.**
- VGM Communication is received after the mentioned deadline the container will be cancelled from loading list.

Operative Procedure for VGM:

- Weighing requests for oversized containers in height will be accepted, provided that the transport is carried out in a conventional truck
- Weighing request for oversized containers in terms of width and length will be subject to the corresponding tariff according to the current rate and the weighing can only be requested from the following address document.vlc@apmterminals.com
- New – Weighing in the event a verification of VGM is needed, the container will be weighted from the yard.
- Cancellation of the weighing request in ADMITASE before the arrival of the container at the Terminal: if, after the weighing request, it is decided to cancel the request and the container has not entered the Terminal, a replacement will have to be made in the admission order before the arrival of the truck at the Terminal accesses.
- Cancellation of the weighing request in ADMITASE after the arrival of the container at the Terminal: if, after the weighing request, it is decided to cancel the request and the container has already arrived at the accesses of the Terminal, the initial request will take precedence and the container will be weighed and therefore invoiced.

Other special cases:

- Truck-Vessel Direct: Weighing will not be accepted and the VGM must be declared through communication via Valenciaport (admitted, VERMAS, cargo list)
- Megatruck-duotrailer: The containers entered in the Terminal in doutrailer will not be weighed at gates and will have to be weighed after being placed in the yard.
